PERMANENT STORAGE OF GEOPHYSICAL MAGNETIC TAPES -- MEL-020-93

All tapes resulting from this program, including the duplicate tapes of all field and processed data, will be transferred to an environmentally controlled fireproof vault at the Federal Records Center located in Lakewood, Colorado. Magnetic tapes from completed programs will be transferred in May, 1993. Since this will be an ongoing program, any additional tapes will be transferred as they become available from the subcontractors.

If you have any questions regarding these arrangements, please contact Fred Grigsby of my staff at 966-6929.
